

# PLAY TO AIRDROP: COMING

P2A / NEW VILLAGE / PARTNERSHIP / UPDATE

## *A NEW YEAR BEGINS!*

*For 2025 we're starting with new partners and the first P2A campaign in Hello Monster's history!*

*Partnership between Epik Duck and Hello Monster!*

# P2A

## PLAY TO AIRDROP

### INFO 1

This event will be divided into **2 main events** and **1 Key Drop previous event**. All of them will be 7 days long.

All players will be able to participate in the P2A event by playing our game, Wonder Wars.

The **Key Drop Event** will allow the Top 1,000 players from its ranking to get a **Key Drop**, an ingame item that will act as a points multiplier for the main events.

The **2 Main Events** will have their own event rankings where the Top 10,000 will secure points for the Final P2A Ranking.

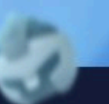

Top 10,000 from the Final P2A Ranking will earn \$H3LLO token.

- *Open to all Wonder Wars players who download the game,*
- *1 Key Drop event to obtain an exclusive multiplier,*
- *2 main events to guarantee your place in the final P2A rankings,*
- *7-day events.*

## Multipliers :

- *Holders of the originals,*
- *Partner communities and creators,*
- *Key Drop event key.*

## PLAY TO AIRDROP

### INFO 2

All 3 events (pre and main) will have their own Event Ranking, where players will earn points by playing and completing missions in Wonder Wars.

The Key from the pre event will grant points multipliers for the Main Events rankings.

There will be extra Keys allocated to Partner Communities and Creators.

Owning Originals will grant points multipliers.

Partner Communities and Creators will also have points multipliers for the Main Events.

# P2A

- *Key handover event: early February*
- *Main event 1: mid-February*
- *Main event 2: early March*

## PLAY TO AIRDROP

### INFO 3

At the end of the second Main Event, points from Main Event 1 and Main Event 2 will be summed up into the Final P2A Ranking.

Top 10,000 from the Final P2A Ranking will grant \$H3LLO token **based on the points and position of every player.**

For token airdrop, **players will have to reach a minimum number of points** that will be announced along with more details about the campaign soon.

**Dates (TBC):**

- Pre Event - Key Drop: Early February
- Main Event 1: Mid February
- Main Event 2: Early March

## *Important information to remember:*

- *2 main events and 1 Key Drop event,*
- *The event starts in February,*
- *1 event will last 7 days,*
- *Open to all,*
- *The top 10,000 finishers will receive \$H3LLO token.*

## NEW MECHANIC

# Let's talk about \$H3LLO tokens

We're continuing to reward our holders, so if you own an NFT from The Originals collection, you're eligible to take part in the \$50 million \$H3LLO token airdrop.

## HOW TO JOIN :

Fill in the form linked at the end of this article to register. Once registered, DO NOT list or sell your original NFT before the TGE (end of Q1 2025). The Hello Monster team will take regular snapshots to verify participants (you will be notified a few days in advance). For each NFT you hold, you'll earn 1 point per day until the TGE.

## FIRST SNAPSHOT: JANUARY 13, 2025

What if I've already staked my Original NFTs? Points earned on the previous staking platform have been saved and credited to your wallet. There is an additional token allocation for previous stakers. For more details, check out the holders' channel on our Discord.

## GOOD NEWS:

If you've already wagered your NFTs on the platform, you don't need to fill in the form to continue participating in the airdrop. However, you still need to follow the "no sale or offer for sale" rule to continue earning points.

## IMPORTANT :

Putting your original NFT up for sale or selling it will result in the loss of your Airdrop points.

Points earned on the staking platform are secure and will never be lost.

## BONUS OPPORTUNITY:

Earn 50 extra points by joining our Discord and checking in as a holder.

Join NOW by filling in this form:

# V1RULO

**INFLUENCER OF THE MONTH!**

@v1rulo

*virulo deserves to be recognized as the Wonder Wars community's outstanding creator of the month for several reasons that combine his creativity, dedication and positive impact on the game environment:*

1. exceptional creativity with the Hindaya plush: although this plush was a gift he received, its existence remains a unique tribute to the Wonder Wars universe. It's the only unofficial plush in the game, making it an exclusive and special object within the community. The quality, level of detail and care taken in its design have even been recognized by the game's official community, who have publicly praised the piece as truly wonderful. This plush is an innovation in the way players can link the physical and digital worlds, extending the reach of the game universe.

2. Contribution to community spirit: by sharing this plush, virulo has demonstrated that passion for a game can transcend the screen and inspire other players to express their creativity and enthusiasm in unique ways. His possession of this exclusive item has generated conversation, admiration and motivation among community members, making him a key figure in keeping the Wonder Wars spirit alive.

The official Wonder Wars account publicly praised this Hindaya plush, marking an important moment in connecting the talent and commitment of players with the support of developers. This kind of recognition strengthens the bonds between the community and the game team, demonstrating the importance of fans in the evolution of the game's ecosystem.

Beyond this fluff, virulo is a committed gamer who actively participates in events, interacts with the community and shows his love for Wonder Wars in and out of the game. This all-encompassing passion reinforces his position as a figurehead of the community.

For all these reasons, virulo has not only shown creativity and enthusiasm, but has also contributed to enriching the collective Wonder Wars experience. His impact and exclusivity as owner of the only unofficial Hindaya plush toy make him an ideal candidate for the title of Creator of the Month - a well-deserved recognition!

# DECK OF THE MONTH!

*And once again, we're back with our much-loved "Deck of the Month" section. This month has been very varied, with all kinds of heroes resurfacing or falling back, with cases like: haruaki, hindaya gaining fame or kadria losing it because of them, but none of them is the definitive deck of this season; I present to you the strongest deck of the whole month:*

*"Wakan + tweeks + hallur".*

*An incredibly powerful deck, great endurance and great damage are the things that characterize this incredible deck.*

## WAKAN

The hero of the deck, he heals the troops with the most damage in the arena and gives priority to those with the least life.

## TWEEKS

Victory condition, fast troops with 70 basic lives and 10 attacks that adapt to the troops entering the arena to reinforce them.

## SOPHIE

Support troop, high endurance and good damage (60 hp; 20 atk), an ideal support troop in this type of aggressive structures that allow you to exert constant pressure, with the addition of Sophie you'll make your troops survive mortal blows, with wakan's ability to heal your troops from heavy damage you'll manage to win the game with little effort.

## HALLUR

Damage troop, Hallur is a troop to be feared, in a few rounds it can increase its attack from 20 base to over 100, Hallur as mentioned above has 20 base damage and 50 health (20 atk; 50 hp), it's a very versatile troop that will often give you life in endurance duels or battles against other Hallur.

## JEN

A support troop, Jen's role is simple: support the healing of higher-damage troops or prevent the wall you're creating from collapsing (Jen has: 70 hp; 20 atk).

## GLOB

Fast damage support, low life but huge damage, glob has always been known as the best aggressive troop in the game, this one supported by a Sophie becomes unstoppable. In this deck, glob is used to stagger damage for even more aggressive pressure (glob: 40 hp; 50 atk).

# DROGDOR WF

Support troop, the creature of the deck; this drogdor will help us with its more than decent damage and incredible stamina (30 atk; 60 hp). We'll use it when we see our wall is in danger to heal Sophie, or when we want to give extra care to a key troop like hallur or glob.

---

*This deck is designed to win almost any match, it has some resemblance to Lyon due to the great endurance the latter provided to troops with its 10 shields, only with wakan to heal the 10 lives we get more value to each troop of great damage or life to: endure or severely damage the opposing hero.*

*That concludes this month's deck, see you soon!*

---

## *Changes are coming soon!*

- The gold economy will change,*
- The city will change,*
- Chest keys will disappear,*
- Missions and character stats will disappear,*
- Campaign mode will leave Wonder Wars,*
- Some creatures will disappear,*
- Remaining creatures will be obtained from chests.*
